

Temporary traffic changes in Botany Street (between High Street and Magill Street)

Water and sewer disconnections at properties 49-101 Botany Street from 12 November 2018 – 19 November 2018

From Monday, 12 November 2018, water and sewer disconnections will be carried out for vacated properties on Botany Street (49-101 Botany Street).

Work will occur outside the construction hoarding on the road pavement. Water supply to private or occupied properties will not be affected during this work.

Temporary traffic management changes

To safely undertake the disconnections a single lane closure of the western lane of Botany Street is required from Monday, 12 November for approximately 6 nights. For traffic and safety reasons, **this work will occur out-of-hours between 7:00pm and 5:00am, when traffic volumes are lower.**

Work may be rescheduled due to unforeseen circumstances or inclement weather.

What can I expect to see?

Disconnection work requires saw cutting of the road surface, manual and machine digging to reach water and sewer connections, backfilling and road restoration. Small excavators, saw cutters, some truck and personnel will be used to carry out this work.

All road surfaces will be tidied to remove any debris caused by this work.

How will access be managed?

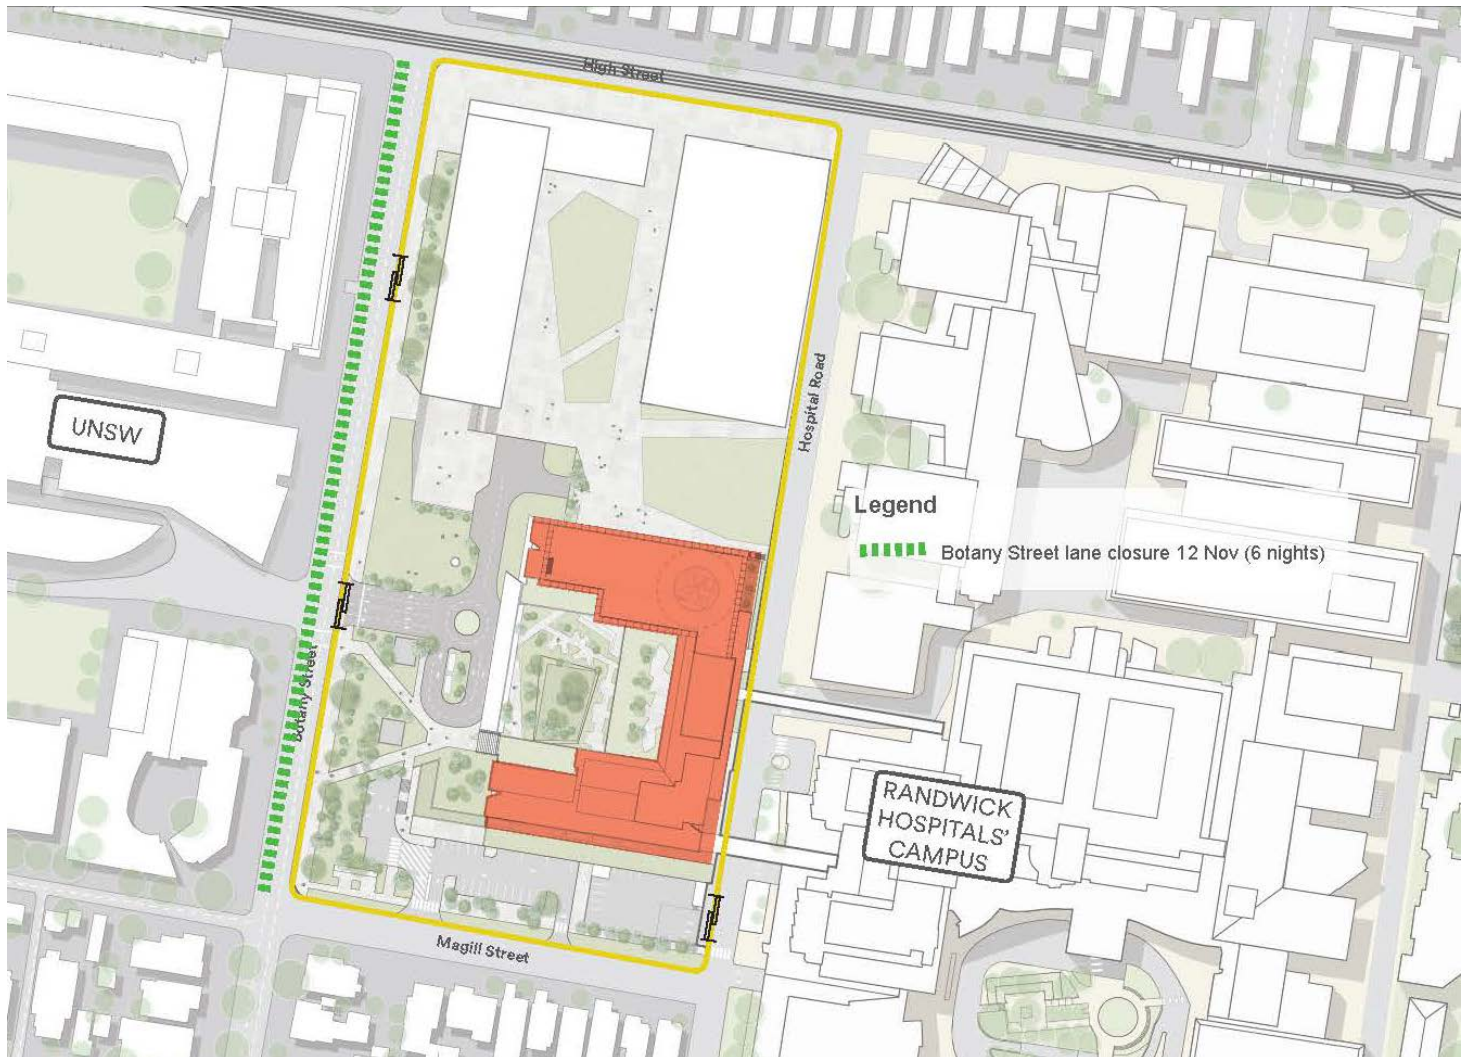

Access for road users, pedestrians and residents will be maintained at all times under the support of traffic control. Excavations will be backfilled and both lanes re-opened at the end of each shift.

How will noise, dust and vibration be managed?

Mitigation measures will be implemented to manage noise, dust and vibration during this time. Noisy works will be scheduled to occur as early in the shift as possible. For traffic and safety reasons, this work must occur out-of-hours.

We thank you for your patience as we undertake this important work.
