

Out of hours equipment delivery via Botany Street construction Gate 1 - Thursday 24 September 2020

Construction of the Integrated Acute Service Building is well underway with the main structure progressing.

The two site Tower Cranes, *Koby* and *Galú*, are supporting construction activities to ensure the safe and efficient movement of materials around the construction site.

Both cranes will be increased in height by 6 metres, with new sections added to the cranes' vertical tower.

Each section and associated equipment will be delivered to the construction site, via Botany Street Gate 1 on **Thursday 24 September 2020**.

The delivery will **occur out of hours between 4:00am and 6:00am using** oversized trucks. Unloading and works to increase the crane heights will occur during approved work hours.

It is a requirement of Roads and Maritime Services that deliveries of this size occur out of hours.

Traffic control will be in place to support vehicle movements.

Work may be rescheduled due to unforeseen circumstances of inclement weather.

Thank you for your patience during this important work.
