

Construction continues for the Prince of Wales Hospital Acute Services Building, the first stage of the Randwick Campus Redevelopment and the catalyst project for expanding the world-class health, research and education facilities at the Randwick Health & Innovation Precinct.

### Key activities continuing through January

#### Acute Services Building construction

Painting, fit-out, joinery and services progressing on all floors. Canopy installation works continue at the future emergency department entry on Magill Street.

#### Hospital Road construction

Service upgrades and pavement construction are occurring within the Hospital Road compound and adjacent to Delivery Drive. Planning continues for future temporary road closures to enable construction of link bridge foundations and structure.

#### Stormwater upgrade – Hospital Road

Hospital Road stormwater upgrade works are on hold through January while service rectification works are undertaken by authorities. The upgrades will recommence in early 2022.

#### Francis Martin Drive works

Works are planned for Saturday 8 January to remove materials from the garden bed adjacent to the bulk oxygen tank. Vehicular access will be maintained at all times with traffic control in place.

#### Public linkway within the Royal Hospital for Women and End of Trip facility works

General construction and refurbishment activities continue on level 0 of the Royal Hospital for Women. Works are occurring on the external building façade adjacent to the front entry, Outpatients department terrace and within the building in secure construction zones.

Construction of the End of Trip facility continues on level B3 of the campus carpark, with works occurring near the vehicle entry/ exit within a secure construction zone.

#### Holiday period site closure

The construction site will be closed from 5pm Thursday 23 December and reopen 7am Wednesday 5 January 2022.

During this time no work will be undertaken on site. Additional 24/7 security patrols will be in place to maintain site security and safety.

We thank you for your patience as works have progressed at the Randwick Campus Redevelopment project site.

### New works commencing in January

#### Botany Street footpath works

From January 2022, works will commence to upgrade the Botany Street pedestrian footpath, adjacent to the Randwick Campus Redevelopment site between High Street and Magill Street, to support the safe movement of pedestrians across the Randwick Health & Innovation Precinct.

Works will involve:

- relocation of existing site hoarding on Botany Street towards the Acute Services Building
- service diversion works beneath the pedestrian footpath
- footpath, kerb and gutter reconstruction

Pedestrian access will be maintained at all times with local pedestrian diversions in place. Works will be undertaken in stages along Botany Street to ensure the safety of pedestrians and road users.

### Approved construction hours

The NSW Government's Health Services Facilities Order provides approval for the extended construction hours of:

- **Monday to Friday, 6am to 10pm**
- **Saturday, 7am to 5pm**

The Public Health Order also allows for fit-out, services and joinery work to occur internally within the Acute Services Building **until 11pm Monday to Friday.**

The extended hours are a temporary measure to ensure worker safety and progress is maintained for the construction of essential health facilities during the COVID-19 pandemic.

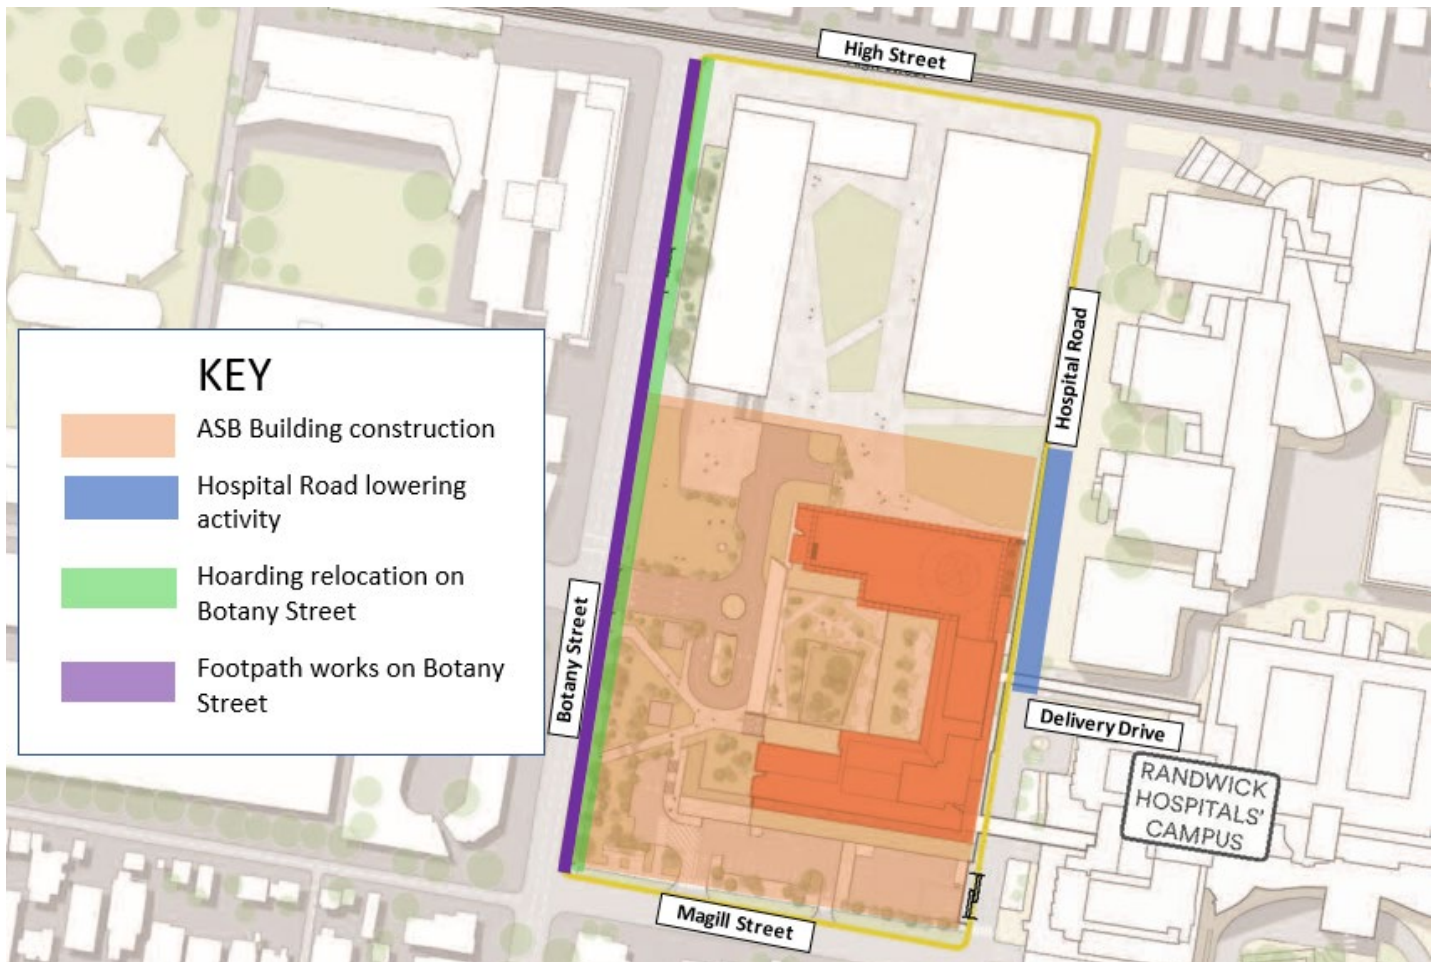

Please note that work may be rescheduled due to weather or unforeseen circumstances such as workforce availability. Any out of hours work will continue to be communicated in advance.

### Managing construction activities

We are committed to minimising the impact of our works where we can. All construction activities are carried out with the health and safety of the local community as our top priority. We endeavour to keep noise, dust and vibration to a minimum.

**Thank you for your patience while we progress these important works.**

### Map of construction activity planned for January 2022
