

RANDWICK

CAMPUS REDEVELOPMENT

Out of hours delivery of plant and equipment to Hospital Road via High Street – Wednesday 27 January 2021

Construction activity is underway along Hospital Road as part of the Randwick Campus Redevelopment. Construction activity will include piling and excavation. Piling activity will commence in late January 2021. To support this activity a piling rig will be delivered to the site compound on Hospital Road on **Wednesday 27 January between 2:00am and 5:00am and take approximately 1 hour to complete.**

The delivery will be made using an oversized truck entering from the northern end of Hospital Road from High Street. It is a requirement of Transport for NSW that deliveries of this size occur out of hours. Traffic control will be in place to support vehicle movements.

Plant and equipment will be unloaded at the High Street and Hospital Road intersection and be stored within the site boundary.

Lighting towers will be used to enable safe unloading of equipment and will be positioned to minimise impact on surrounding buildings.

Work may be rescheduled due to unforeseen circumstances of inclement weather.
Thank you for your patience while we work to deliver the new hospital.
