

Temporary closure of the B2 car park driveway accessed from Hospital Road between 15 June 2020 – 15 August 2020

As part of the Hospital Road lowering construction works, the B2 car park driveway accessed from Hospital Road will be temporarily closed between 15 June 2020 – 15 August 2020.

During the closure of the B2 car park driveway, please use:

- main car park access from Barker Street (via Easy Street) to B1 (24hrs) or;
- B3 car park accessed from Hospital Road (6am to 6pm only).

Construction activity

During this time the following construction activities will occur:

- trenching and excavation in the road and pavement surface to create new stormwater and sewer pits
- trenching across the B2 car park driveway, lifting of material and equipment, installation of pipe work, backfilling and restoration
- preparation of a piling mat using excavators, rollers, imported material and trucks to provide a stable platform for piling activity
- installation of formwork, reinforcement and concrete pouring
- piling and excavation works
- construction of a new brick fire booster enclosure using scaffold, personnel, equipment and trade vehicles.

Construction management

A range of measures will be in place to manage construction impacts including noise, dust and vibration monitoring, installation of secure hoardings and safety exclusion zones, wetting down of stockpiles and respite periods for high noise generating activities.

Hospital and emergency access will be maintained on campus at all times and traffic controllers and signage will be in place during the works.

We thank you for your patience as we undertake this important construction activity that is part of the Randwick Campus Redevelopment.
