

# Hospital Road Construction

## Out of hours construction activity and temporary weekend closure of Delivery Drive

Hospital Road and Delivery Drive construction continues to support delivery of the Prince of Wales Hospital Integrated Acute Services Building.

Out of hours weekend work is required as part of these activities, with the temporary closure of Delivery Drive from;

**5:00pm Friday 14 May to 10:00pm Sunday 16 May**

During this time, piling activity will be carried out along Delivery Drive to enable the future installation of link bridges connecting the existing campus to the Integrated Acute Services Building.

A piling rig will be delivered to the Hospital Road compound, via Barker Street, on Friday 14 May between 2:00am – 4:00am and removed from site Monday 17 May between 2:00am – 4:00am. It is a requirement of Transport for NSW that deliveries of this size occur out of hours. Traffic control will be in place to support vehicle movements.

Please see map over page for the location of construction activities.

The Randwick Campus Redevelopment complies with strict environmental and planning controls. Measures are in place to monitor and manage noise, dust and vibration with respite periods applied to noisy activities including rock cutting and use of jackhammers.

# Hospital Road Construction

Planning for these temporary closures has occurred in close consultation with the Hospital Campus.

Work may be rescheduled due to unforeseen circumstances of inclement weather. We thank you for your patience during this important work.
