

# RANDWICK

## CAMPUS REDEVELOPMENT

## Welcome

Welcome to the first project update for the Randwick Campus Redevelopment. This month, the NSW Government committed to an unprecedented investment in health for Randwick and Eastern Sydney, committing an additional \$220 million to progress plans for a new Acute Services Building for Prince of Wales Hospital and a new state of the art Randwick Health and Education Precinct.

The \$720million funding investment builds on the NSW Government's promise to deliver the first major upgrade of the Prince of Wales Hospital in 20 years and transform the existing hospital's campus' standing as one of Australia's leading providers of health and medical research services.

### Randwick Campus Redevelopment

The Randwick Campus Redevelopment is an important first step to transform health services for the Randwick community. A new Acute Services Building will be built to the west of the existing Randwick Hospital's Campus

that will include a new emergency department, extra beds, expanded rehab and ambulatory care facilities and new shared operating theatres for the Randwick Campus. A masterplan for a dedicated mental health precinct has been completed.

We see this as an opportunity to define the long term development direction for the new Precinct so that we can lead and shape the future of health for Randwick, address demand and ensure greater Sydney will have access to world-leading, innovative healthcare.

## Expanding our campus

Expanding the campus to the west is the best way to integrate health, research and education partners and deliver high-quality co-located clinical services to grow Randwick as a centre for medical and academic excellence.

## What's next?

Planning for the next phase of the project is underway and we will submit a Final Business Case to NSW Treasury in late 2017 following consultation with the community, staff, patients, their families and carers, and our precinct partners.

The development of a robust business case is a NSW Government requirement for all capital projects, to ensure infrastructure agencies deliver projects that drive value for money outcomes for the community.

## Your Redevelopment Team

The project is being led by Health Infrastructure and South Eastern Sydney Local Health District in consultation with our precinct partners, Sydney Children's Hospitals Network and UNSW.

## Working with the community

Consultation will continue to be a significant part of the planning process to ensure the priorities of the Randwick Campus Redevelopment are thoroughly considered. We are implementing a rigorous and collaborative approach to planning and consultation that is paramount to strengthening our future.

We will begin community information sessions in the last quarter of 2017 to give you an opportunity to speak with your Redevelopment Team and have your say. We will provide regular updates to residents as the project progresses.

For an interpreter, call 131 450 and ask them to call 02 9978 5402

If you need an interpreter, please call the Translating and Interpreting Service (TIS National) on 131 450 and ask them to phone Randwick Campus Redevelopment on 1800 571 866.

## CONTACT US

We're keen to keep you updated as we progress through each stage of the project. To register your interest in the project, please contact us.
