

Botany Street night works

UNSW Gate 11 access restrictions Wednesday 14 and Thursday 15 December

Construction continues on a new signalised intersection on Botany Street which will support safe pedestrian and vehicle access to both the Randwick Hospitals Campus and the UNSW Kensington Campus via Gate 11.

Night works to repair and improve the road surface at the intersection will be undertaken on **Wednesday 14 December and Thursday 15 December 2022 between 8pm and 5am.**

Associated line marking will be completed on the night of Monday 19 December, weather permitting.

During these works, there will be no vehicle access to UNSW via Gate 11. Pedestrian access will be maintained via alternate routes.

Emergency services access to the university campus will be maintained.

While every effort will be made to minimise disruption, some noise can be expected during this work.

For any questions or concerns about this activity, please contact the Randwick Campus Redevelopment project team via the details below.

Thank you for your patience while we progress these important works.
