

Notification of evening/weekend works – Friday 1 to Sunday 3 November 2024

With construction of the new Sydney Children's Hospital Stage 1 and Minderoo Children's Comprehensive Cancer Centre well progressed, the remaining tower crane will soon be removed.

Approved after hours and weekend works to support the crane removal will commence at 6pm on Friday 1 November, with overnight and weekend works continuing through to 10pm on Saturday 2 November (weather permitting). Any remaining works will be completed between 6am and 10pm on Sunday 3 November.

The works will involve setting up a mobile crane to support the dismantling of the tower crane, followed by loading the dismantled crane onto trucks and trailers for removal via the Botany Street site access. For the duration of these works, pedestrian travel on Botany Street will be diverted to the western footpath in the vicinity of the site.

These activities may result in minor noise impacts from vehicles entering and exiting the site via the Botany Street and Hospital Road site access points, as well as the use of tools, and the loading/unloading of equipment and crane infrastructure. Site lighting will also be utilised to ensure safety during night works

Thank you for your patience while we deliver this project.

Please note that all activity dates and times are subject to change.

Contingency dates of 8 to 10 November have been identified in the case of inclement weather.
