

Works Notice

Randwick Campus Redevelopment

February 2025

Temporary construction activity – Prince of Wales Hospital Acute Services Building – Mezzanine foyer (Level 0), commencing Wednesday 5 February 2025

As part of ongoing construction activity within the Prince of Wales Hospital Acute Services Building (ASB) to deliver the future Acute Services Operating Suite on Level 1, a temporary construction zone will be established on Level 0 of the ASB main entrance foyer.

Works within the temporary construction zone will take place between 7am and 5pm weekdays across a six-week period from Wednesday 5 February to Wednesday 19 March 2025.

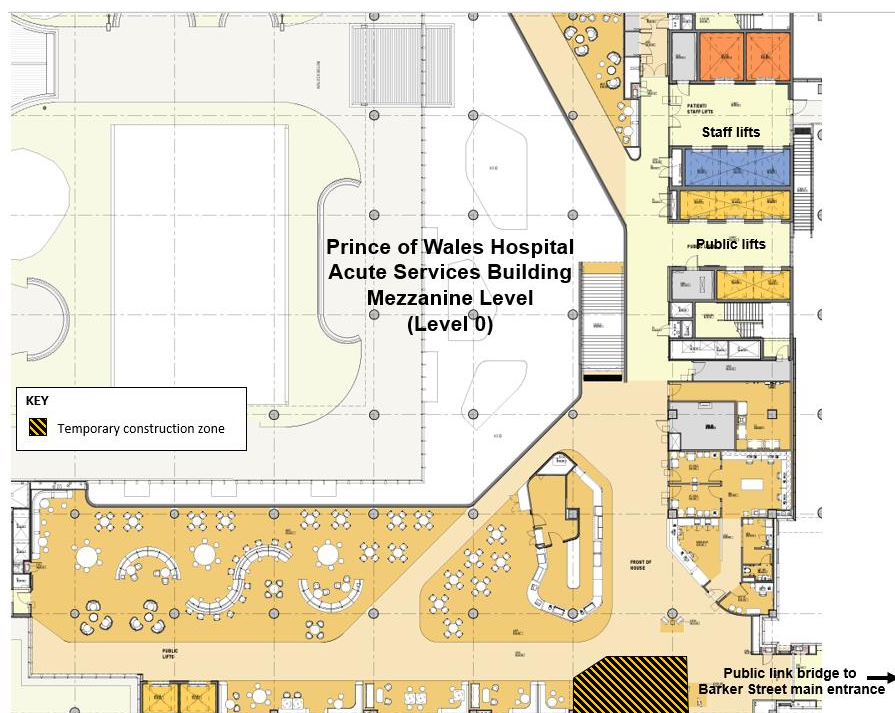

During this period, hoarding will be established around the temporary construction zone. Please refer to the floor plan below for details.

Some construction noise is likely as a result of these works. Mitigation measures will be in place to minimise any impact as much as possible.

Access to nearby departments and thoroughfares will not be affected, and directional signage will be in place to assist staff and the community in navigating past the construction zone to access lifts to the main entrance foyer (B1) and the Emergency Department (B2).

For details of ongoing works within the Prince of Wales Hospital Acute Services Building, refer to the [project fact sheet](#)
