

Construction Update

The NSW Government is investing over \$1 billion in the Randwick Health & Innovation Precinct, strengthening health, research, education and innovation outcomes to ensure NSW is at the forefront of health research and education internationally.

Main Works for the Prince of Wales Hospital Acute Services Building are well progressed and Early and Enabling Works for the Sydney Children's Hospital Stage 1 and Minderoo Children's Comprehensive Cancer Centre Redevelopment are underway.

Activities in July 2022

Acute Services Building construction

Final finishes installation and validation testing continues for all floors of the Acute Services Building.

Landscaping at the main entry forecourt and the Emergency Department entry adjacent to Magill Street is commencing.

Works for the clinical link bridge and UNSW Eastern Extension structure will continue in July.

Activities for the staff End of Trip Facility on level B3 of the campus carpark continue near the vehicle entry/ exit within a secure construction zone.

Hospital Road north and northern site works

Early and Enabling Works for the Sydney Children's Hospital Stage 1 and Minderoo Children's Comprehensive Cancer Centre are continuing on the northern portion of the Randwick Campus Redevelopment site and Hospital Road north.

Activities include site remediation, service investigations and installation of new electrical infrastructure under Hospital Road and the High Street footpath. Night works for service investigations and installation works will continue in July.

All activities are being undertaken by licenced contractors using procedures in compliance with legislation and safe work practices.

Botany Street activities

Planning for the construction of a new signalised intersection on Botany Street to provide safe pedestrian and vehicle access to the new Prince of Wales Hospital Acute Services Building, future

Sydney Children's Hospital Stage 1 and Minderoo Children's Comprehensive Cancer Centre, UNSW Health Translation Hub and UNSW Kensington Campus continue to progress. The intersection will be located between High Street and Magill Street, opposite UNSW Gate 11 and Library Walk.

Further information will be provided to affected stakeholders ahead of the works commencing.

Work to relocate existing services on the Botany Street footpath will continue in July. Pedestrian access will be managed through appropriate diversions. Signage and/or traffic control will be in place to assist pedestrians, where required.

Francis Martin Drive activities

Works to widen the footpath on the southern side of Francis Martin Drive are scheduled to commence in July. Works have been planned to minimise impacts to vehicles, bikes and/or pedestrian access. Signage and/or traffic control will be in place to assist, where required, with priority given to ambulances.

Magill Street upgrade

Landscaping activities on Magill Street are expected to commence in July. This work will occur in localised work zones. Magill Street remains accessible to residents throughout the works.

Upcoming out of hours work

Hospital Road and Delivery Drive activities

Temporary weekend closures of the hospital loading docks are planned to continue throughout July from 5pm Friday through to 10pm Sunday supporting a range of construction activities on Hospital Road and Delivery Drive.

Critical works may occur past 10pm in the case of inclement weather or delays to ensure the loading docks can reopen safely to maintain hospital operational continuity.

Weekend closures of the hospital loading docks, oversize deliveries and construction activities are associated with the public and clinical link bridges, that will connect the hospital campus to the new Acute Services Building.

Resurfacing of Hospital Road and Delivery Drive, near the Black Dog Institute. These works are planned to occur over two consecutive nights, followed by an additional night, a week later for line-marking.

Detailed information will be provided to affected stakeholders ahead of the works commencing.

Managing construction activities

We are committed to minimising the impact of our works where we can.

All construction activities are carried out with the health and safety of the local community as our top priority. We endeavour to keep noise, dust and vibration to a minimum.

Where possible, activities are scheduled during approved site hours **Monday to Friday, 7am to 6pm and Saturday, 8am to 5pm.**

Work may be rescheduled due to weather or unforeseen circumstances such as workforce availability. Any out of hours work will continue to be communicated in advance directly to affected stakeholders.

Thank you for your patience while we progress this important work.
