

Notification of night works – Sydney water main service investigations

To support ongoing construction of the new Sydney Children's Hospital Stage 1 and Minderoo Children's Comprehensive Cancer Centre, out of hours activities to survey existing Sydney Water Authority assets will be undertaken within sections of High Street.

Service investigation activities are planned to occur over four nights from Monday 19 June and Friday 23 June between 8pm and 5am, weather permitting.

Activities include the establishment of investigation zones, identification of underground services and temporary removal of street utility hole covers to inspect services requiring associated equipment. Some minor noise impacts may be experienced.

During these activities, there will be limited access to sections of High Street, including the footpath, in the vicinity near the construction site between Avoca Street and Botany Street, with pedestrian and vehicle diversions in place.

For any questions or concerns about these activities, please contact the project team via the details below.

Thank you for your patience while we work to deliver this exciting project.

Please note that activity dates and times are subject to change.
