

Notification of weekend site establishment activities – Saturday 16 November 2024

To support a program of Prince of Wales Hospital refurbishment works being delivered as part of the Randwick Campus Redevelopment project, a storage compound and temporary site sheds will be installed on Hospital Road, adjacent to Delivery Drive. These facilities will be in place for approximately 12 months.

Site shed installation and set-up activities are scheduled for Saturday 16 November from 8am to 4pm.

Heavy vehicles will deliver site sheds and materials via Barker Street and Hospital Road, entering Loading Dock 7 and reversing to the site establishment zone. A small mobile crane will unload the sheds, with each delivery expected to take approximately 20 minutes. All vehicles will be escorted by traffic control, with a single transportation vehicle entering and exiting Hospital Road at any given time.

These works may result in minor noise impacts from vehicle movements and the unloading of equipment and materials. Noise mitigation measures will be in place.

While temporary delays to traffic flow may occur as delivery vehicles access the site, there will be minimal impact to car park access.

Pedestrian and emergency vehicle access to the hospital will be maintained at all times.
