

Notification of out of hours works – tower crane activity, November 2024

To support ongoing construction of the UNSW Health Translation Hub, UNSW's construction partner will be conducting weekend site activities in November to carry out essential tower crane modifications.

Approved out of hours works are scheduled for Saturday 23 November from 4am to 7pm (weather permitting). Any remaining works will be completed on Sunday 24 November, between 6am and 5pm.

Construction vehicles and equipment will enter the site via the Botany Street construction gate and carry out all activities from within the construction site.

For the duration of these works, pedestrian travel on Botany Street will be diverted to the western footpath in the vicinity of the site.

These activities may result in minor noise impacts. For any questions or concerns about this activity, please contact the project team via the details below.

Thank you for your patience while we deliver this important project.

Please note that all activity dates and times are subject to change. Contingency dates of Saturday 30 November and Sunday 1 December are proposed in the case of inclement weather impacting planned activity.
