

Hospital Road Construction

Night works update - High Street and Hospital Road

Intermittent night works continue on the corner of High Street and Hospital Road, near the Sydney Children's Hospital, Randwick. **The work is carried out under an Ausgrid Authority approval.**

Essential works include the installation and connection of electrical utilities as well as pavement and driveway enhancements. Works are undertaken at night to manage traffic and pedestrian access and ensure hospital operational continuity.

The next scheduled night works are planned for four consecutive nights from Sunday 4 to Wednesday 7 September, between 7pm and 6am.

Access to the Sydney Children's Hospital and Children's Emergency will be maintained at all times throughout the works.

You may experience intermittent noise or vibration during the approved hours as a result of excavation and concreting works. Noise generating work will be monitored and prioritised for the start of each shift to minimise disruption.

Traffic control will be in place to support pedestrian and vehicle movements around the work site.

For any questions or concerns about this work, please call the Randwick Campus Redevelopment project team on the 24/7 number, 1800 571 866.

Thank you for your patience while we progress these important works.
