

## Notification of out of hours delivery and construction activity – Hospital Road, Monday 30 September 2024

As part of ongoing construction activity to deliver the Sydney Children's Hospital Stage 1 and Minderoo Children's Comprehensive Cancer Centre, works to asphalt the northern section of Hospital Road will be undertaken on Monday 30 September\* within the current construction site.

**While all works will be carried out between approved construction hours of 7am and 6pm, out of hours delivery and removal of associated machinery is required to support these works.**

A semi-trailer will access the work area via Hospital Road between 9pm and 5am on the evening prior to works, reversing under traffic control to unload machinery at the site. The semi-trailer will be positioned on Hospital Road throughout the day until completion of works enables reloading, with the vehicle leaving site between midnight and 5am on Tuesday 1 October.

Increased construction traffic can be expected during works, with vehicles accessing the site via Hospital Road off Barker Street and utilising the campus loading dock to access the work area under traffic control.

Any odour from asphaltting activity is expected to be minimal and temporary, and intermittent construction noise is likely.

For any questions about the scheduled works, please contact the project team.

*\*Please note that works may be rescheduled in the event of inclement weather.*
