

Notification of works – High Street and Hospital Road, Sunday 16 April 2023

Intermittent works on High Street and Hospital Road will be undertaken throughout 2023 to support construction of the new Sydney Children's Hospital Stage 1 and Minderoo Children's Comprehensive Cancer Centre.

The final stage of previously communicated works to connect a new kiosk substation were unable to be completed on Sunday 2 April and have been rescheduled.

The connection to the power network is now scheduled for Sunday 16 April, between 7am and 4pm.

Activities will include removal of temporary pit covers, connection of low and high voltage cables, backfilling and temporary footpath restoration, requiring associated equipment and machinery. Some noise impacts may be experienced.

To support these works, the High Street footpath adjacent to the construction site will be closed between Hospital Road and Botany Street, with pedestrian diversions in place.

There are no planned power outages to surrounding residents or the hospital as part of these works.

Access to the hospital and Children's Emergency will be maintained at all times through traffic control.

This work is carried out under an Ausgrid Authority approval.

Location of works

For any questions or concerns about this work, please contact the project team via the details below.

Please note that service upgrades unrelated to the redevelopment project may also be undertaken in this area by other agencies at any given time without notification.
