

Dear Resident or Business Owner

Ryde Hospital Redevelopment - Project Update - July 2024

We are sending you this update because your home or business is located close to the Ryde Hospital Redevelopment.

Staging and temporary building works on campus are planned to commence in July 2024. These works will relocate some buildings and services to make way for the future hospital building.

The staging and temporary building works ensure that the project delivery is safe, well-organised, and efficient. The work includes the construction and operation of a range of temporary facilities including:

- a new temporary ICU/CCU inpatient unit
- changes to the Graythwaite building to accommodate new temporary kitchen, linen and stores and connection to Trigg House
- relocated loading dock, engineering and waste management facilities
- in-ground services and utilities
- site offices.

The temporary facilities are planned to be in place until late 2027.

Construction activities will be managed ensuring hospital operations continue safely while noise and vibration impacts are minimised.

Work will occur during standard construction hours from 7am to 6pm Monday to Friday and 8am to 1pm Saturdays. Limited work may occur out of hours, for example on Sundays or during the evening or early morning to minimise impacts on hospital operations. We will notify affected stakeholders in advance.

There will be access and parking changes on campus during the works. Signage and traffic controllers will be in place as needed and further information will be provided ahead of any changes coming into effect.

Thank you for your understanding while we progress this important infrastructure project.

Yours sincerely,

Ryde Hospital Redevelopment Project Team
